## Adventure

---

### Cenote Escondido

Para llegar al cenote puede ir a pie o conducir un kilómetro a través de la selva, mientras hace el recorrido puede disfrutar de la fauna de la selva, los árboles exóticos y la familia de monos araña que giran alrededor de los árboles. Al entrar se dará cuenta que es una gran y profunda piscina en donde puede nadar y refrescarse, tiene acantilados de piedra de unos 2 a 4 metros. Pueden llevar su equipo de snorkel para que pueda ver a los peces, tortugas de agua dulce y llegar hasta las cuevas submarinas.

### CENOTE CALAVERA

With names like Calavera (Which means Skull in Spanish) and “Temple of Doom” we had to check this place out on our last visit to Tulum. This cenote did not disappoint! A short walk from the parking lot located on the main highway we found our new favorite cenote – and the best part it starts with a cliff jump to get in!

### GRAN CENOTE

Limestone cenote & cavern with snorkeling areas, equipment rentals & boardwalks.

### CENOTE MANATI

En este maravilloso lugar podrá disfrutar de la práctica del buceo, snorkel y otras actividades acuáticas. Además deslumbrarse con la belleza de la flora y la fauna con la que cuenta el cenote, como este cenote converge en una laguna que da al mar podrá ver a los manatíes. No pierda la oportunidad de conocer este maravilloso lugar y llevarse un magnifico recuerdo.
